

Memorandum

To: Honorable Mayor Maso and Members of the Frisco City Council

cc: George Purefoy, City Manager
Paul Knippel, P.E., Director of Engineering Services
Elizabeth Metting, P.E., Asst. Director/City Engineer

From: Jason Brodigan, P.E., Senior Civil Engineer

Date: June 29, 2010

Subject: Consider and act upon a Resolution to support the reconstruction of the SH 289 (Preston Road) at US 380 Interchange project.

Action Requested: City Council consideration and approval of a Resolution to support the reconstruction of the SH 289 (Preston Road) at US 380 interchange project.

Background Information: The Texas Department of Transportation (TxDOT) is completing the design for the reconstruction of the Preston Road bridge over US 380. The project will begin just north of the Parvin Branch bridge which is currently under construction by TxDOT. The existing two lane bridge will be removed and replaced with a new six lane bridge to match the current Preston Road construction project. The new bridge will be constructed in the location required to avoid reconstruction during the US 380 project in which the intersection will become a three level interchange.

The project will be formally presented to the public at a Public Hearing scheduled on July 15, 2010.

Alternatives: The Council could choose to deny this request or request additional information.

Financial Considerations: The Regional Transportation Council (RTC) has allotted Regional Toll Revenue funds for this project.

Legal Review: Not Applicable.

Supporting Documents: Supporting documents include the following items:

- Copy of Resolution

Agenda Memorandum
SH 289 at US 380 Intersection Resolution
City Council Meeting of June 29, 2010
